2. Executive Summary

- **Question:** What is the punishment for attempt to murder under BNS section 109, and how does it change if hurt is actual?
- **Answer:** We need to answer: punishment for attempt to murder under BNS section 109, and how it changes if hurt is actual.

We need to locate relevant context. The context includes many sections: 109 appears in chunk 6 (92ec40d2...). Let's examine it.

We need to parse: The table seems to list sections and punishments. For 109(2) we see: "Attempt by life-convict to Death, or imprisonment for life, if hurt is caused. for life which shall be imprisonment for life."

But we need punishment for attempt to murder under BNS section 109. Likely section 109 is "Attempt to murder". The punishment is imprisonment for life, or fine, or both.

Let's search memory: In Indian Penal Code (IPC) attempt to murder is Section 307: punishment: imprisonment of either description for a term which may extend to three years, or fine, or both.

Now BNS (Bharatiya Nyaya Sanhita) likely similar. The context chunk 6 shows 109(2) "Attempt by life-convict to Death, or imprisonment for life, if hurt is caused. for life which shall be imprisonment for life."

But we also see 110: "Attempt to commit culpable homicide Imprisonment for 3 years, or fine, or both. If such act causes hurt, it shall be imprisonment for life, or fine, or both."

Thus 109 likely is attempt to murder. The table may have entry for 109 (maybe missing due to formatting). Let's look again at the table.

Thus 109(2) seems to be "Attempt by life-convict to Death, or imprisonment ... murder, if hurt is caused. for life which shall be imprisonment for life."

Maybe the base punishment is in 109(1) not shown. The chunk only shows 109(2). However we can answer based on known law: attempt to murder is punishable with imprisonment of either description for a term which may extend to three years, or fine, or both.

Thus answer: Under BNS section 109, attempt to murder is punishable with imprisonment of either description for a term which may extend to three years, or fine, or both.

Better to answer based on general knowledge but must rely on context. The context does not explicitly give base punishment

8. Corrective Action Plan

```
- **[IMMEDIATE] Lower Sampling Temperature**
  - Description: Reduce generator temperature to 0.0 or 0.1 for deterministic outputs.
  - Expected Improvement: Output becomes rigid and closely aligned to the prompt context. (Metric: Hallucination rate (Unsupported Claims) decreases to 0%).
- **[SHORT_TERM] Strict Prompt Grounding**
  - Description: Inject systemic instructions forcing the LLM to output 'I don't know' if context is insufficient.
  - Expected Improvement: LLM reliably declines to answer ungrounded queries. (Metric: Increase in 'Not Verifiable' traces decreases to 0%).
